Ingredient
Ordering

 LIVE SINCE FEBRUARY 2026

610

Orders fulfilled by
commissaries

31,410

Cases Produced and
shipped

Built for Every Retailer Who Runs A Commissary

Grocery, Convenience & Specialty

One platform for every retailer format, no matter how your commissary operates.

One Connected Workflow

Commissary to store, fully joined up. Orders, production and distribution in sync.

Consistent Execution

Every production run follows the same standards, every time, across every location.

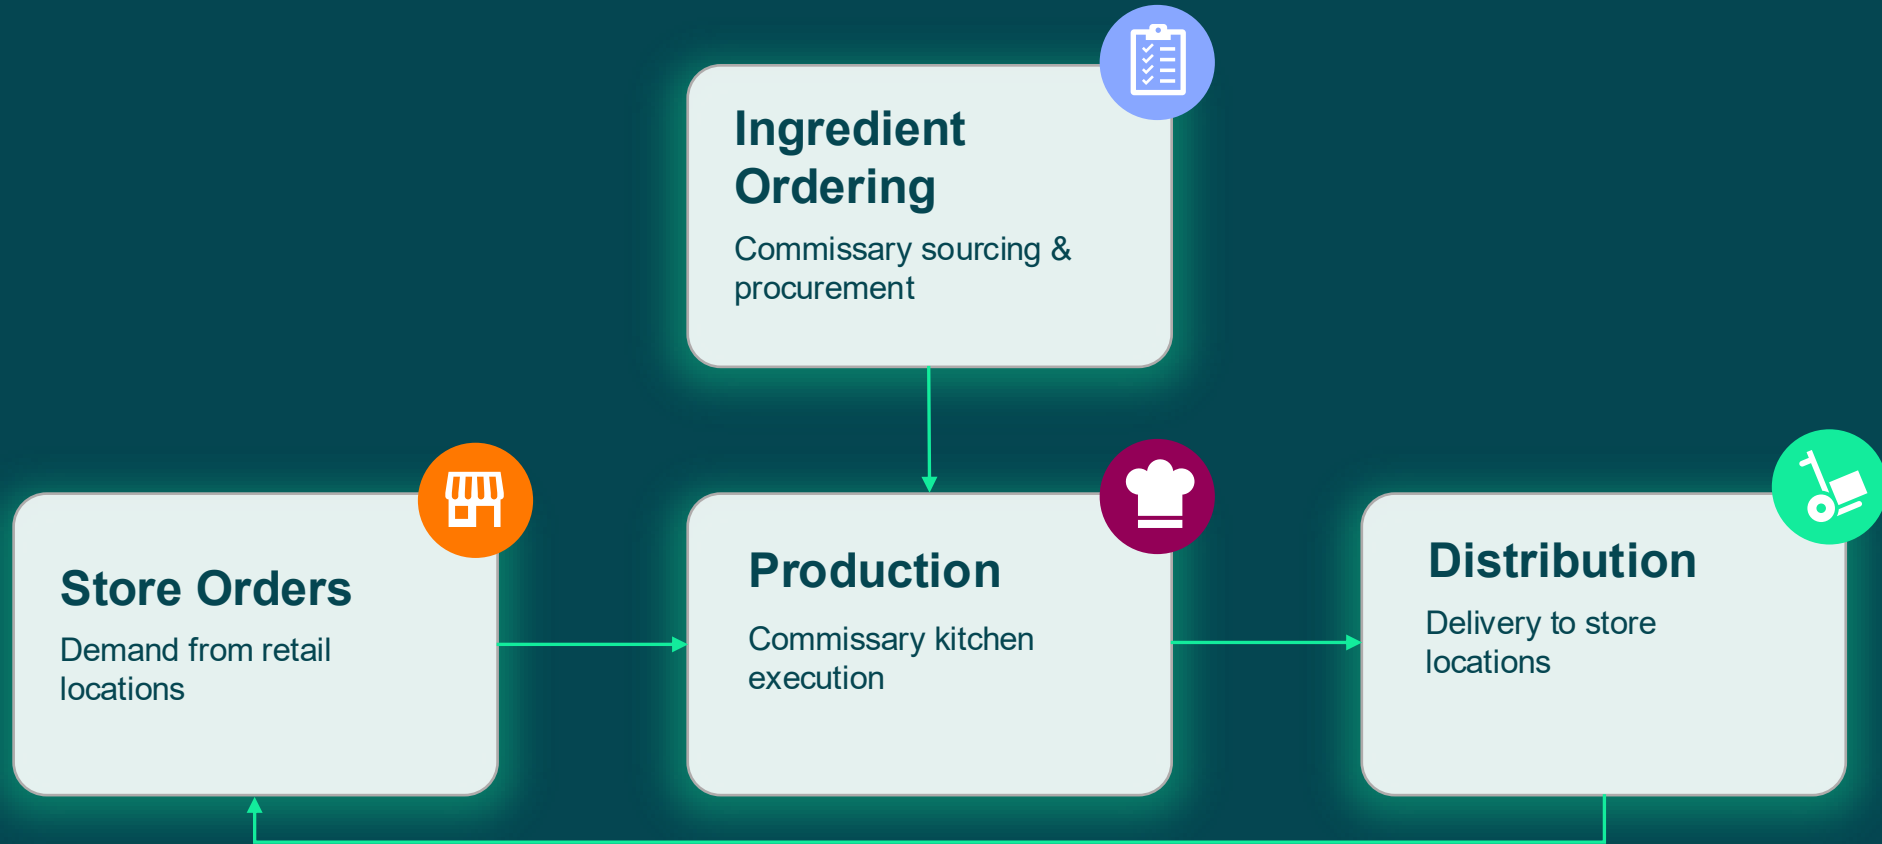

Compliant Labeling & Traceability

FSMA-ready traceability with automated labeling built into the production workflow.

Commissary 360 Workflow

End-to-end visibility from ingredient ordering to store delivery

Commissary Ingredient Ordering

Elements in an ingredient order SUGO

- How many production events occur before the next order?
- Which stores order the item for those production events?
- What is each store's demand period from their order schedule?
- Have the store orders been generated and/or adjusted?
- What is the store forecast?
